

# Abbreviations and Acronyms Used in the Presentation

|   |
|---|
| A1C: Hemoglobin A1c                             |
| ACC: American College of Cardiology             |
| ACE: Angiotensin-converting enzyme              |
| ACS: Acute coronary syndrome                    |
| ADP: Adenosine diphosphate                      |
| AHA: American Heart Association                 |
| AMI: Acute myocardial infarction                |
| ASA: Aspirin                                    |
| ATP: Adenosine triphosphate                     |
| BMS: Bare-metal stent                           |
| BP: Blood pressure                              |
| CA <sup>++</sup> : Calcium                      |
| CAD: Coronary artery disease                    |
| CABG: Coronary artery bypass graft              |
| CCS: Canadian Cardiovascular Society            |
| CHD: Coronary heart disease                     |
| CHF: Congestive heart failure                   |
| CI: Confidence interval                         |
| CK: Creatinine kinase                           |
| CVA: Cerebrovascular accident                   |
| CXR: Chest x-ray                                |
| DES: Drug-eluting stent                         |
| ECG: Electrocardiogram                          |
| ED: Emergency department                        |
| EMS: Emergency medical services                 |
| ETT: Exercise tolerance test                    |
| GI: Gastrointestinal                            |
| GP: Glycoprotein                                |
| GRACE: Global Registry of Acute Coronary Events |
| HF: Heart failure                               |
| HR: Hazard ratio, heart rate                    |
| IV: Intravenous                                 |
| LDL-C: Low-density lipoprotein cholesterol      |
| LMWH: Low molecular weigh heparin               |
| LV: Left ventricular                            |
| MI: Myocardial infarction                       |

|   |
|---|
| NSTEMI: Non-ST-elevation MI                 |
| O <sub>2</sub> : Oxygen                     |
| PCI: Percutaneous coronary intervention     |
| PVD: Peripheral vascular disease            |
| SL: Sublingual                              |
| STEMI: ST-elevation MI                      |
| Sx: Symptom                                 |
| TIA: Transient ischemic attack              |
| TIMI: Thrombolysis In Myocardial Infarction |
| UA: Unstable angina                         |
| UFH: Unfractionated heparin                 |
